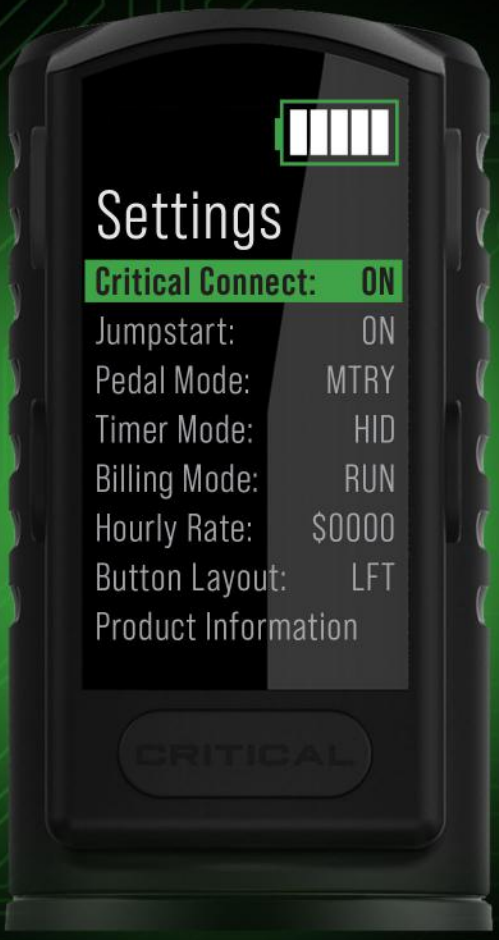
SETTINGS MENU

(DEFAULT SETTINGS)



(ALTERNATE SETTINGS)

COMMAND	BUTTONS	ACTION
TO ENTER SETTINGS MENU FROM MAIN MENU	L1 + R1	3 SEC HOLD
SCROLL UP	L1 OR R1	1 – CLICK
SCROLL DOWN	L2 OR R2	
BACK BUTTON OR RETURN TO MAIN MENU	CRITICAL	2 – CLICK

SETTINGS DEFINED

CRITICAL CONNECT:
Connect or Disconnect from Bluetooth
(Critical Connect Footswitch Required)

JUMPSTART:
Turn Jumpstart On or Off

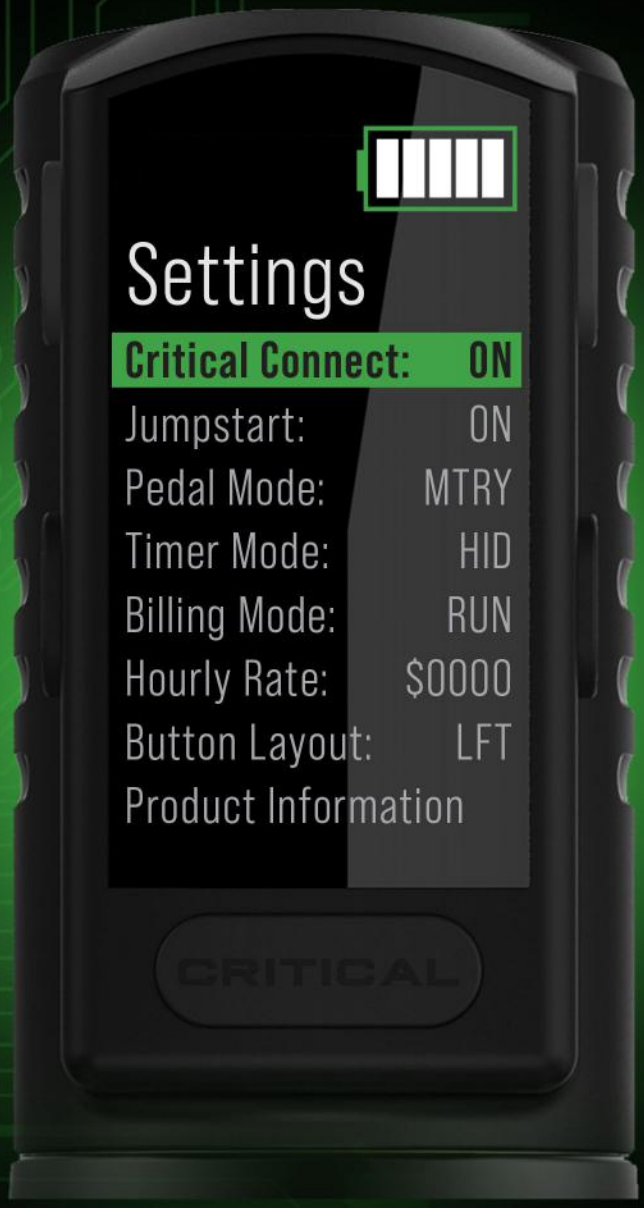
PEDAL MODE:
If using a footswitch, you can change your output mode on the pedal to either continuous or momentary power.

TIMER MODE:
You can make your Run/Session timer visible on the main menu or hide it with a play/pause symbol.

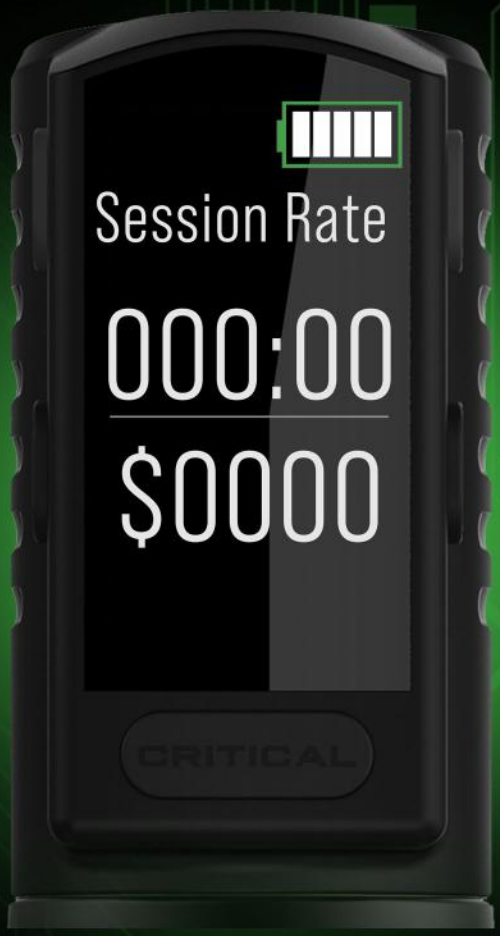
BILLING MODE:
If you want to track your session time and/or hourly rate, you can do so two ways. The Session timer will record the entire session from when you manually start the timer and pause it, like a stopwatch. The Run timer will record only when the battery is active and outputting power.

HOURLY RATE:
You can update your hourly charge rate here.

BUTTON LAYOUT:
You can switch your primary buttons to either the Left or Right side to change the voltages.

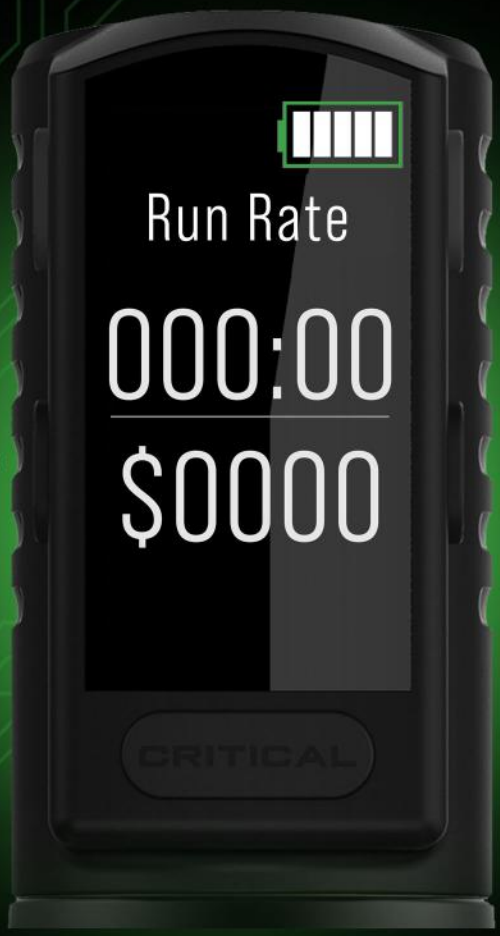


SESSION RUN MENU



HOURS : MINUTES

TIME X HOURLY RATE
= SUM



** Run Rate occurs when machine indicates the battery is outputting power.
